

ALKIRA RESIDENCES

BY QUESTWORKS

Alkira Residences is an upscale development located in the serene neighbourhood of Lavington.

It is near to prestigious schools, hospitals, malls and sports & leisure clubs as well as some of Nairobi's finest International restaurants.

Alkira Residences is an attractive buy for families and investors that merges convenience and comfort.

Carefully aligned balconies adorn the facade, ensuring that each resident enjoys a unique external space of their own

Penthouses

Alkira's 8th floor embraces an open plan that allows for a range of uses. Our design includes living and dining areas, a casual lounge and an enclosed study.

The focal point of the penthouse is the expansive terrace that captures a 180 degree view of the Nairobi skyline.

High, tiered ceilings, modern chandeliers and french windows are elements of the top floor suites. The private terrace has space for a mini bar and nap nook.

1 Spill-out terrace

2 Study

3 Large span living area

4 Casual lounge

5 Bedroom 1 & private open bath

6 Formal dining

7 Open kitchen & breakfast table

8 Cloakroom & entry coat closet

9 Master bedroom & in situ open bath

10 Bedroom 2 & private open bath

11 Laundry & Pantry

12 Guest room & bath

Additional: Four parking spaces and storage boxes on ground and basement floors

The open kitchen is compact, with plenty of storage space. With counter height seating, the attached breakfast table is a hassle free area for early morning blues

partments

The 2nd to 7th floors offer modern three bedroom apartments. Large windows benefit individual rooms with natural light and air and beamless ceilings allow for an unobstructed perspective through the open spaces.

Wood-like floor tiles are a stain free, visually appealing feature that invites family members to engage. Lavish balconies, some of which run for 90 degrees, are a great way of spending time outdoors without leaving the house
